

**REMARKS**

Claims 6, 11-12 and 19 have been cancelled. Claims 16-18 and 20-21 are withdrawn. Claims 1-5, 7-10, 13-15 and 22-24 are pending in this application.

The Examiner required restriction to one of the following:

**Species I**, drawn to a handheld computer device having a motion sensor embedded within the device, and

**Species II**, drawn to a handheld computer device having an add-on attachment which incorporates a motion sensor.

**Species 1 and Species II** are each separately directed to at least the following patentably distinct sub-species:

**Sub-Species A**, drawn to a motion sensor configuration wherein an accelerometer chip is mounted at a non-perpendicular angle with respect to a circuit board, and

**Sub-Species B**, drawn to a motion sensor configuration wherein an accelerometer chip is mounted in plane with a slanted circuit board.

In response, the applicant elects **Species I, Sub-Species A**, without traverse. Based on the Applicants' review of the application **Species I, Sub-Species A** includes claims 1-5, 7-10, 13-15 and 22-24. Non-elected claims 6, 11-12, and 16-21 have been either cancelled or withdrawn without prejudice to pursuing these claims in a continuation, divisional, continuation-in-part or other application.

Upon allowance of the generic claims, applicant(s) request considerations of claims to additional species which are written in dependent form or which otherwise include all the limitations of the allowed generic claims.
